

NFTE Venture

NFTE's award-winning curriculum combines with Everfi's leading ed-tech platform to create an interactive course that shows students how to approach business and life with an entrepreneurial mindset. The program builds students' awareness of entrepreneurship by having students start a virtual food truck business. At the end of Venture, each student leaves with their own e-Portfolio – a dynamic, visual representation of their work. Venture can be integrated into many types of courses, to extend learning through a fun digital experience.
